

DIAMOND BLADES

DUM+S

DUM+S METAL & STONE

DESCRIPTION : A specially designed laser welded blade for metal and very hard stone applications. Narrow keyhole gullets for less chipping and a reduction in vibration levels. Incredibly fast cutting and long life.

USE ME FOR : Indian stone / Granite / Class A Engineering bricks
Clay products / All reinforced concrete types / Steel & iron
Ferrous metal sections up to 10mm gauge

7MM SEGMENT HEIGHT

SEGMENTED NARROW KEYHOLE GULLET

LASER WELDED

NARROW GULETS

If a diamond blade has narrow gullets there will be less chipping of material and a slight reduction in vibration.

KEY HOLE GULETS

Similar to narrow gullets, key-hole gullets result in less chipping of the material being cut and a reduction in vibration levels.

COOLING HOLES

Cooling holes in a blade as the description says, will keep the steel core cool and will prevent distortion of that core. Keeping the diamond matrix cool in segments will improve speed and life.

THE TOP-LINE FROM DURO, WHERE MAXIMUM PERFORMANCE IS THE ONLY CONSIDERATION DURING THE PRODUCT DESIGN PROCESS. THE VERY BEST QUALITY RAW MATERIALS ARE UTILISED TO ENSURE THE HIGHEST POSSIBLE OUTPUT.
