

DUST SUPPRESSION WATER TANK ACCESSORIES

DURO PLUS

REPLACEMENT VALVE KIT

DESCRIPTION : Replacement valve for release of pressure built up during use of DP-DST-13L. The valve operates using a traffic light system and will automatically release when red section of pressure gauge is shown.

USE ME FOR : Used to suppress the creation of dust from hand held saws in all working environments. Essential safety at work accessory for all users of diamond blades driven by petrol saws.

DUST SUPPRESSION

IMPORTANT - The HSE* strongly recommends the use of dust suppression tanks when using diamond blades.

Exposure to RCS dust created when using diamond blades can lead to serious health problems.

Cutting concrete and stone products produces enormous amounts of dust containing Crystalline Silica (RCS) particles.
